THE INSTALLATION DIVISION OF SPORTS MAINTENANCE SERVICES

INTRODUCTION

Sports Overlays supply and install a variety of synthetic surfaces suitable for a wide range of sports; tennis, netball, hockey and football.

Sports Overlays is the installation division of Sports Maintenance Services. Our experienced teams work throughout the UK and we have over 17 years experience in installation.

Sports Overlays can be fitted over suitable existing bases, such as macadam and stone, providing a **cost effective solution** for refurbishment and renovation. They are quick to install, highly durable and easy to maintain.

All Sports Overlays are European manufactured and carry installation and performance warranties, based on levels of maintenance and use.

We offer quality systems and expertise in installation. Our site surveyors are happy to advise on the range of systems and guide you as to the best solution for your requirements.

CUSHION SYSTEM
PKK - TENNIS / NETBALL

CUSHION SYSTEM
EASY CLAY - TENNIS ONLY

"Sports Overlays proved to be an excellent choice for the installation of our porous acrylic courts. The initial meetings were thorough. The preparatory work was very professional with members noting the time they spent readying the surface. The installation was smooth and conducted with great diligence by their Project Manager. The painting of the surface and most importantly the lines was managed with precision.

Steve Tiddy, Sutton Tennis and Squash Club

PKK CUSHION SYSTEM

Popular with tennis clubs and schools across Europe and the UK. PKK is a heavy duty cushioned matting system that has an acrylic textured coat finish. The matting is glued onto an existing base, normally macadam or concrete. It can be used indoors and outdoors. PKK gives a faster more competitive game and is classed as an ITF category 4 medium – fast pace play.

The PKK product not only offers the end users excellent slip resistance and grip under foot, but also gives more energy back to the body through the patented acrylic matting. The PKK surface is excellent for all standard of players from Juniors to Seniors and allows a mixed paced game that will suit all levels of player.

- European manufactured system
- The PKK offers fast and reliable drainage, keeping courts active all year round
- Life expectancy 12-15 years (clubs) 20+ years (private use)
- Play characteristics consistent/stable over time
- The acrylic finish can be upgraded to achieve netball standards, making it a multi-use surface
- It offers a superior playing surface/upgrade for end users
- Avoids re-surfacing costs linked to installing a new macadam base
- Warranties for up to 8 years

We offer an in-built maintenance package on PKK installations.

Recent installations include: Sutton Tennis Club, Harrow School, Hereford Tennis Club.

EASY CLAY

CUSHION SYSTEM

Easy Clay is an open cushioned matting system with a pure rubber infill (EPDM). It is texturised and has a more open meshing system than the PKK. Once layed, the surface is given a single coat of heavy duty textured paint. It is then top dressed with pure (EPDM) rubber, 4 kg per metre square.

Play Characteristics - slower than the PKK, Easy Clay offers less traction but offers more slide for players. Complies with an ITF category 3 - medium pace.

- European manufactured system
- Easy Clay offers fast and reliable drainage, keeping courts active all year round
- Life expectancy 12-15 years (clubs) 20+ years (private use)
- Play characteristics consistent/stable over time
- It offers a superior playing surface/upgrade for end users
- Avoids re-surfacing costs linked to installing a new macadam base
- Warranties for up to 8 years

We offer an in-built maintenance package and annual testing programme on our Easy Clay installations.

Recent case study includes Townsend Tennis Club 2018.

"We are very pleased to have the surface installed ... it is playing very well."

TESTING

SMASH COURT CARPET SYSTEM

Smash Court is a sand filled artificial carpet. It offers a medium-slow paced game and is ideal for clubs. It complies with ITF Category 2 and it is an exceptionally low maintenance system, benefiting from consistent play characteristics over time. It is extremely weather resistant so offers all year round playing. Line markings are included within the system.

Infill options are: Belgium red sand or a Garsides burnt sand.

Carpet pile height is 15mm. Inlaid lines are slightly raised 2mm proud of the red synthetic turf.

- European manufactured system
- Smash Court offers fast and reliable drainage, keeping courts active all year round
- Life expectancy 12-15 years (clubs) 20+ years (private use)
- Play characteristics consistent/stable over time
- It offers a superior playing surface/upgrade for end users
- Avoids re-surfacing costs linked to installing a new macadam base
- Warranties for up to 8 years

We offer an in-built maintenance package and annual testing programme on our smash court installations.

1. Infill

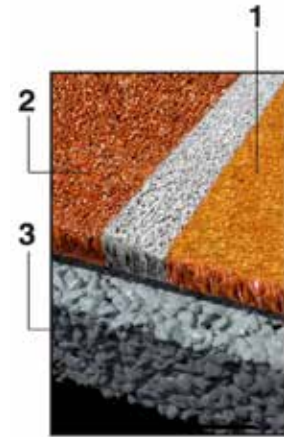

The Smash court infill is made of burnt silica infill that gives a red ceramic finish and is non absorbent and frost proof.

2. Synthetic carpet

The synthetic carpet is a special latest generation red artificial turf 12-15mm. The line marking, which consist of white, monofilament artificial turf fibres, is permanently bonded/ inlaid and the white inlaid lines are 2mm proud of the red synthetic turf.

3. Substructure

The substructure consists of an engineered base with a standard 6mm porous macadam aggregate at a minimum depth of 30mm.

TENNIS MATCH

SAND DRESSED CARPET SYSTEM

A surface suitable for tennis and netball. Tennis Match is a sand dressed carpet system. It has a pile height of 15mm. Tennis Match is an exceptionally low maintenance system, benefiting from consistent play characteristics over time. Tennis Match can be quickly rolled over an existing macadam base.

Play characteristics - it is a surface that will get faster over time as the carpet wears and as infills compact, speeding up the game. It complies with ITF Category 3.

- European manufactured system
- Tennis Match offers fast and reliable drainage, keeping courts active all year round
- Life expectancy 12-15 years (clubs) 20+ years (private use)
- It offers a superior playing surface/upgrade for end users
- Avoids re-surfacing costs linked to installing a new macadam base
- Warranties for up to 8 years

We offer an in-built maintenance package on our match point installations.

INSTALLATIONS

TENNIS MATCH

SAND FILLED CARPET SYSTEM

This is a sand filled carpet system. It is our most popular choice for our private clients. It has a pile height of 22mm. It is an exceptionally low maintenance system, benefiting from consistent play characteristics over time.

The system can be quickly rolled over an existing macadam base. It complies with ITF Category 3 / 4. Tennis match can be used to cover old pitted, macadam, upgrading your old court to competitive level.

- European manufactured system
- Tennis Match offers fast and reliable drainage, keeping the court active all year round
- Option to install D's, making it good for recreational hockey, football and netball
- Life expectancy 12-15 years (clubs) 20+ years (private use)
- It offers a superior playing surface/upgrade for end users
- Warranties for up to 8 years

We offer an in-built maintenance package and annual testing programme.

CLIENT TESTIMONIALS

Hi Mark

Just wanted to say a big thank you, the court looks so much better and even though we don't play on it it's so much tidier to look on.

Your staff were excellent too.

Kind Regards

Carol & Tony

Dear Sir / Madam,
I enclose cheques for the deep clean of our court. Your company have done a marvellous job and I have recommended you to several of our friends.
The account ref is: STEEL.
Thank you for an excellent job carried out by very nice staff.
Yours faithfully
Judith

10 July 2017

Just a quick note to say, many thanks for a job well done!
The gang worked really hard and made an amazing transformation of the court.
We couldn't be more pleased with the end result.
Ronnie Clark is a star and a credit to your company.
Best Regards
Keith

28.2.2016.

Dear Gary, Jason & The Team,
Thank you all very much for an excellent job, well done.
The young men who came were most helpful, courteous & efficient.
Mrs Mrs S. Alderson.
